# Natural Landscape Stone Products and Services

Sepulveda Building Materials offers the finest selection of natural landscape stones for landscape designers, landscape contractors, developers or homeowners looking to make a unique statement.

Natural landscape stones can be used for a variety of landscaping projects, such as retaining walls, spas, pools, steps, features in a garden, focal point, or waterfalls of all sizes.

We offer an extensive selection in granite, sandstone, volcanic, and quartzite natural landscape stones that are carefully selected to ensure that each one maintains its natural

beauty. They are available in a myriad of shapes, sizes, textures & colors. Visit a Sepulveda location today to select the perfect stones for your project.

## Available Styles

**ORNAMENTAL BOULDERS** consist of irregularly shaped stones that may be ornately contoured, strikingly angular or smoothly formed by a glacier. Sizes vary from head size up to 4,000 lbs.

**NATURAL DESIGNER STONE BLOCKS** are relatively square and rectangular boulders. Blocks will vary in size from one and one half square feet to twelve square feet in surface dimension. Blocks will range approximately in thickness from four inches to three feet.

**SLABS** consist of irregularly shaped pieces of natural stone, generally with one split surface, half way flat or finished face. Slabs will vary in size from two square feet to twenty four square feet in surface dimension. They range in thickness from approximately four inches to two feet.

## Boulder Prices

All boulders are sold by the pound. The average price falls between \$0.10 and \$0.30 per pound with some slightly higher or lower in price. After selecting a specific natural landscape stone, we can quote you an exact price.

## Professional Placement

As a service to our clients, we offer affordable boulder placement. All deliveries are made by a team of boulder placement specialists with our state of the art articulated crane truck. You can even have additional materials for your project delivered on the same truck!

### Estimating Cost of Boulder Placement

Price of Natural Landscape Stone  
 +  
 \$ \_\_\_\_\_ for the First Hour\*  
 +  
 \$ \_\_\_\_\_ for each Additional Hour\*

\* Time is calculated from the time the truck departs from Sepulveda Building Materials and ends when the truck arrives back to point its point of origin.
